Genre: Action & Adventure

Hello, i have for sale the most rare game for Nintendo 64 - Indiana Jones and the Infernal Machine in PAL version !!!

This game was never published and released as a PAL/Overseas version, that's why is very rare. Game Electronic Arts planned to release it in Europe, but the title then saw a change of publisher to THQ. Originally scheduled for March 2001, the PAL version became subject to continuous monthly delays and was eventually canceled in September 2001. The game is a full version and delivered on a genuine NUS-16F32S cartridge with standard CIC-NUS-7101 PAL lockout chip and playable on PAL N64 units.

Game details:

Indiana Jones and the Infernal Machine is a port of the PC title released in 1999. The year is 1947 and World War II has recently ended. Dr. Henry Jones, also known as Indiana Jones, is in the southwestern United States. Unbeknownst to him, over in Europe the Soviet Union has placed Communist agents everywhere to search for a weapon that could shift the balance of power.

A Russian scholar by the name of Gennadi Volodnikov is most interested in the Tower of Babel. It is there that he believes a machine exists that is capable of travelling through time. The machine, inspired by the god Marduk, was completed. However, when completed the Babylonians became alarmed and sent four of Marduk's disciples, along with parts of the machine, to the Tower of Babel.

Players assume the role of Indiana Jones who, after learning of the Soviet's plans, knows he must now race against the Soviets in order to recover the parts and keep the "Infernal Machine" alone though, as he will find help in the form of CIA agent Sophia Hapgood (who is making a return appearance from the PC game Indiana Jones and the Fate of Atlantis) and a team of mercenaries.

As Indiana Jones, players can perform a variety of actions: walk, run, jump, roll, pull, push, climb, hang, shimmy across ledges, swim, punch, and use a large number of weapons: revolver, 9mm automatic pistol, machine pistol, combat rifle, machete, submachine gun, pump action shotgun, bazooka, satchel charges, and hand grenades. Also, at key moments, players can drive a jeep, ride a raft, and ride a mine car.

Indiana Jones and the Infernal Machine is viewed from a third-person perspective throughout the 16 levels and one bonus level. While playing through the levels players will be able to change difficulty settings, are gained by completing levels and finding particular objects. The highest possible score is 1,000 I.Q. points.

The equipment will be well packed for postage. I ship worldwide!!!
