Item specifics

Condition: **Good** :

Seller Notes: "Cartridge looks good. The stickers are in great shape."

Platform: Nintendo 64

Up for sale is Castlevania 64 for the Nintendo 64. This is a prototype cartridge. You may be wondering, "What does this mean?". It is a cartridge that contains a non-final version of the game. According to the label it is version 0.2 from 12/10/1998 and it appears to be build number 109. Please keep in mind that the final version of this game was released on 01/26/1999 in the United States and 03/11/99 in Japan.

There is Japanese writing on the sticker. I am unsure what region this version was intended for because the in game text was in English.

I did play the game for a bit and was able to defeat the giant skeleton boss. Everything functioned as I expected it to. I am unsure what differences there are between this and the final version of the game, but I'd have to imagine something has to be different at some point due to this being version 0.2.

The game fit in my US N64 and worked great. I suspect the cart will fit in a Nintendo 64 from any region.

If there is anything else I can help with please contact me!
